

Survey Demographics

Demographic measures are often gathered in survey research to assess how different characteristics of the population (age, gender, social factors etc.) influence the results. The demographics are presented below to provide the reader of this report with an understanding of the diversity of respondents.

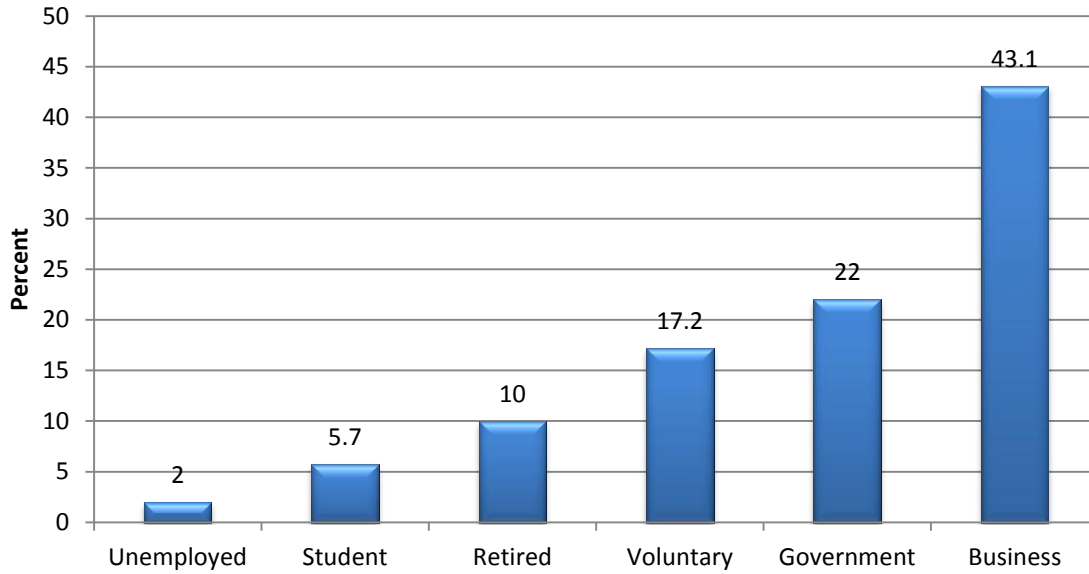

In what country were you born?

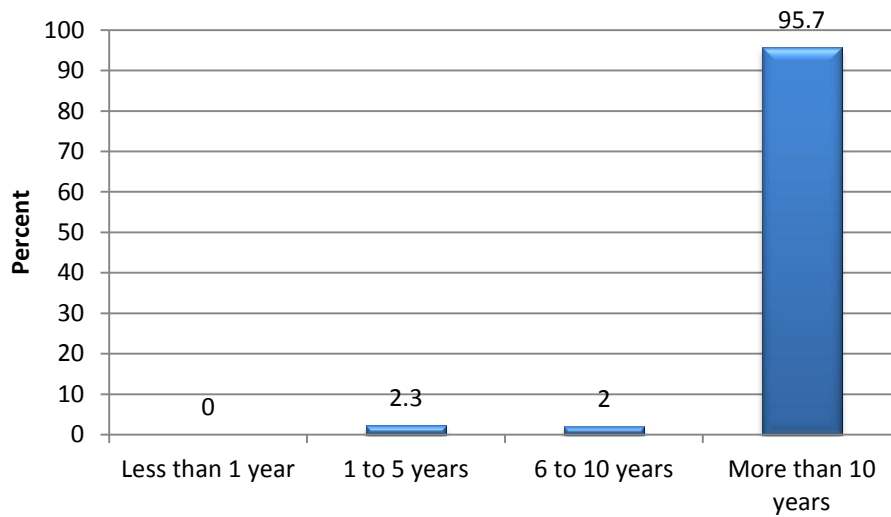

Education?

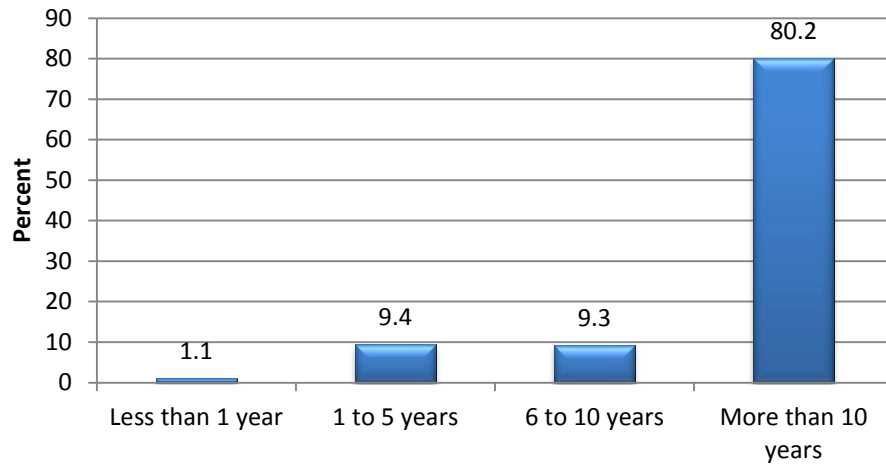

What sector do you work in?

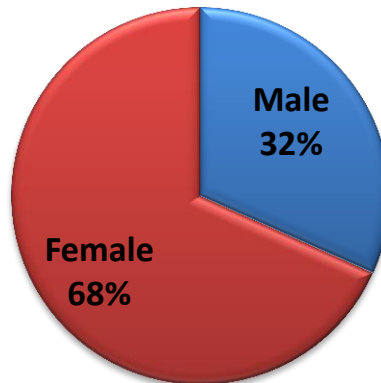

How long have you lived in Canada?

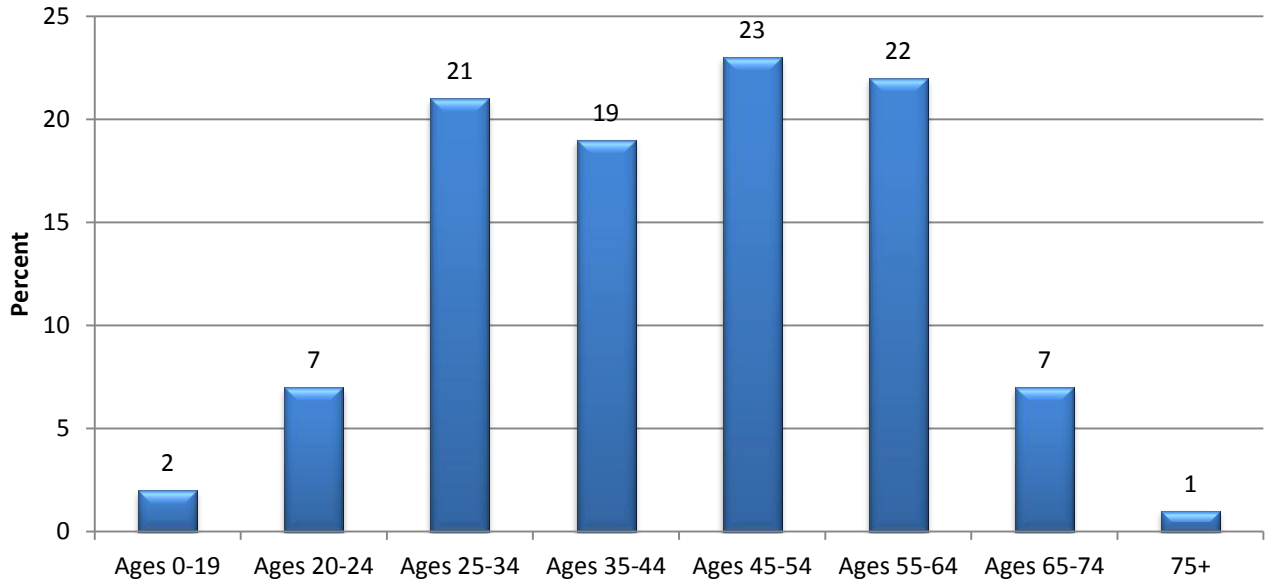

How long have you lived in Calgary?

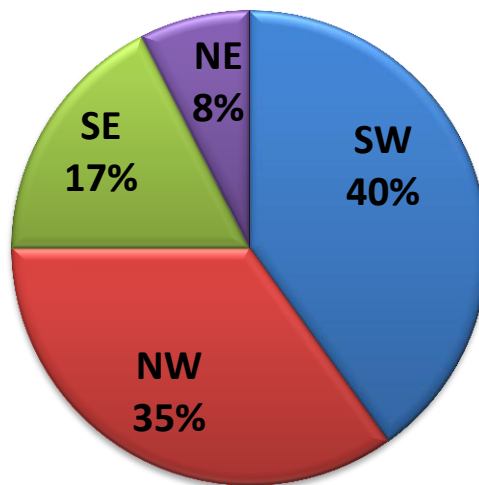

Gender?

Age?

Respondents by Quadrant
